PROTECT YOUR PEOPLE. PROTECT YOUR INVESTMENT.

We understand your team is facing logistics and budget pressures every day. You don't have time to waste on worrying about how safe or code compliant your vehicle servicing facility is. Let **Clean Energy®**'s dedicated Facility Modification Services team take these concerns off your plate today with our natural gas containment **NGV Easy Bay™** system.

Our **NGV Easy Bay™** is the first natural gas vapor leak barrier developed specifically for NGV maintenance facilities. Every modular system is configured to your fleet, facility and budget ensuring we'll only install what you need.

Every **NGV Easy Bay™** system is:

The lowest cost code compliant solution in the industry

Designed & installed with your daily operations in mind

Scalable, retractable & reconfigurable solution

Certified by **Clean Energy**, the most trusted name in natural gas fueling
